Export Logic Flow Diagram

Complete export process visualization

1. User Selects
Mode + Format

↓

2. System Validates
Both options selected?

3a. Multiple Files
Generate N files
Package in ZIP

3b. Single Document
Merge all conversations
Create 1 file

4a. Format Conversion
MD / TXT / JSON

4b. Format Conversion
MD / TXT / JSON

5. Download File
User saves to disk

Note: The system only enables the "Start Export" button when both Mode and Format are selected.

This prevents incomplete exports and ensures a smooth user experience.
